International application No.

PCT/AU00/00651

International filing date (day/month/year)

09 June 2000 (09.06.00)

Priority date (day/month/year)

IMPORTANT NOTICE

11 June 1999 (11.06.99)

Applicant

TELSTRA R & D MANAGEMENT PTY. LTD. et al

 Notice is hereby given that the International Bureau has communicated, as provided in Article 20, the international application to the following designated Offices on the date indicated above as the date of mailing of this Notice: AG.AU.DZ.KP.KR.MZ.US

In accordance with Rule 47.1(c), third sentence, those Offices will accept the present Notice as conclusive evidence that the communication of the international application has duly taken place on the date of mailing indicated above and no copy of the international application is required to be furnished by the applicant to the designated Office(s).

2. The following designated Offices have waived the requirement for such a communication at this time:

AE,AL,AM,AP,AT,AZ,BA,BB,BG,BR,BY,CA,CH,CN,CR,CU,CZ,DE,DK,DM,EA,EE,EP,ES,FI,GB,GD,GE,GH,GM,HR,HU,ID,IL,IN,IS,JP,KE,KG,KZ,LC,LK,LR,LS,LT,LU,LV,MA,MD,MG,MK,MN,MW,MX,NO,NZ,OA,PL,PT,RO,RU,SD,SE,SG,SI,SK,SL,TJ,TM,TR,TT,TZ,UA,UG,UZ,VN,YU,ZA,ZW The communication will be made to those Offices only upon their request. Furthermore, those Offices do not require the applicant to furnish a copy of the international application (Rule 49.1(a-bis)).

 Enclosed with this Notice is a copy of the international application as published by the International Bureau on 21 December 2000 (21.12.00) under No. WO 00/78022

REMINDER REGARDING CHAPTER II (Article 31(2)(a) and Rule 54.2)

If the applicant wishes to postpone entry into the national phase until 30 months (or later in some Offices) from the priority date, a demand for international preliminary examination must be filed with the competent International Preliminary Examining Authority before the expiration of 19 months from the priority date.

It is the applicant's sole responsibility to monitor the 19-month time limit.

Note that only an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II has the right to file a demand for international preliminary examination.

REMINDER REGARDING ENTRY INTO THE NATIONAL PHASE (Article 22 or 39(1))

If the applicant wishes to proceed with the international application in the national phase, he must, within 20 months or 30 months, or later in some Offices, perform the acts referred to therein before each designated or elected Office.

For further important information on the time limits and acts to be performed for entering the national phase, see the Annex to Form PCT/IB/301 (Notification of Receipt of Record Copy) and Volume II of the PCT Applicant's Guide.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

(
	International application No.
	PCT/AU00/00651

With regard to the elements of the international application:*
the description, pages , as originally filed, pages , filed with the demand, pages , received on with the letter of the claims, pages , as originally filed, pages , filed with the demand, pages , filed with the demand, pages , filed with the demand, pages , received on with the letter of the drawings, pages , as originally filed, pages , filed with the demand, pages , received on with the letter of the sequence listing part of the description: pages , as originally filed pages , filed with the demand pages , filed with the demand pages , received on with the letter of With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in computer readable form. furnished subsequently to this Authority in written form.
pages , filed with the demand, pages , received on with the letter of the claims, pages , as originally filed, pages , filed with the demand, pages , filed with the demand, pages , filed with the demand, pages , received on with the letter of the drawings, pages , as originally filed, pages , received on with the letter of the sequence listing part of the description: pages , as originally filed pages , filed with the demand pages , the demand pages , received on with the letter of With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in computer readable form. furnished subsequently to this Authority in written form.
pages , received on with the letter of pages , as originally filed, pages , as amended (together with any statement) under Article 19, pages , filed with the demand, pages , received on with the letter of the drawings, pages , as originally filed, pages , received on with the letter of pages , received on with the letter of the sequence listing part of the description: pages , as originally filed pages , filed with the demand pages , filed with the demand pages , received on with the letter of With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. furnished subsequently to this Authority in written form.
the claims, pages , as originally filed, pages , as amended (together with any statement) under Article 19, pages , filed with the demand, pages , received on with the letter of the drawings, pages , as originally filed, pages , received on with the letter of the sequence listing part of the description: pages , as originally filed pages , filed with the demand pages , filed with the demand pages , filed with the demand pages , received on with the letter of With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
pages , as amended (together with any statement) under Article 19, pages , filed with the demand, pages , received on with the letter of the drawings, pages , as originally filed, pages , filed with the demand, pages , received on with the letter of the sequence listing part of the description: pages , as originally filed pages , filed with the demand pages , received on with the letter of With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
pages , filed with the demand, pages , received on with the letter of the drawings, pages , as originally filed, pages , filed with the demand, pages , received on with the letter of the sequence listing part of the description: pages , as originally filed pages , filed with the demand pages , received on with the letter of With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
pages , received on with the letter of the drawings, pages , as originally filed, pages , filed with the demand, pages , received on with the letter of the sequence listing part of the description: pages , as originally filed pages , filed with the demand pages , filed with the demand pages , received on with the letter of With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
the drawings, pages , as originally filed, pages , filed with the demand, pages , received on with the letter of the sequence listing part of the description: pages , as originally filed pages , filed with the demand pages , received on with the letter of With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
pages , filed with the demand, pages , received on with the letter of the sequence listing part of the description: pages , as originally filed pages , filed with the demand pages , filed with the letter of With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
pages , received on with the letter of the sequence listing part of the description: pages , as originally filed pages , filed with the demand pages , received on with the letter of 2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
the sequence listing part of the description: pages , as originally filed pages , filed with the demand pages , filed with the letter of 2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
pages , as originally filed pages , filed with the demand pages , filed with the demand pages , received on with the letter of 2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
pages , filed with the demand pages , received on with the letter of 2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form.
pages , received on with the letter of 2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
 With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language—which is: the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
the language of publication of the international application (under Rule 48.3(b)). the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
and/or 55.3). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, was on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form.
furnished subsequently to this Authority in written form.
furnished subsequently to this Authority in computer readable forms
rumshed subsequently to this Authority in Computer readable form.
The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished
4. The amendments have resulted in the cancellation of:
the description, pages
the claims, Nos.
the drawings, sheets/fig.
5. This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**
* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).
** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report

(54) Title: A METHOD OF DEVELOPING AN INTERACTIVE SYSTEM

(57) Abstract: A method of developing an interactive system, including inputting application data representative of an application for the system, the application data including operations and parameters for the application, generating prompts on the basis of the application data, and generating grammar on the basis of the application data. The prompts and grammar are generated on the basis of a predetermined pattern or structure for the prompts and grammar. The grammar also includes predefined grammar. Grammatical inference is also executed to enhance the grammar. The grammatical inference method for developing the grammar may include processing rules of the grammar, creating additional rules representative of repeated phrases, and merging equivalent symbols of the grammar, wherein the rules define slots to represent data on which an interactive system executes operations and include symbols representing at least a phrase or term. The grammar is hierarchical and the rules include a reference count representing the number of other rules that reference the rule. Additional rules to be created during grammatical inference are determined on the basis of attribute constraints.
